#### FIRST DIST. TEACHERS' ASSOCIATION.

Meeting held in court house audi-  
torium, Saturday Oct. 26.

Teachers present: Nell Alexander,  
Bertha Hedges, Kittie Blanchard, El-  
vira Simonson, Edith Beck, Alice  
Beezley, Eva Schnatterly.

Teachers responded to roll call by  
telling what use they make of the  
course of study. Nearly all found it  
useful in some way.

Miss Schnatterly read the second  
chapter of "Phelps and his Teacher,"  
which was listened to attentively.  
This series presents some of the vital  
principals of pedagogy in the form of  
an entertaining story, and will be one  
of the features of the association work  
for the winter.

Miss Anderson, who was to present  
a paper on Nature Study, was unable  
to be present but the subject was well  
discussed by Miss Blanchard and oth-  
ers.

After the question box, which was  
both interesting and instructive, Supt.  
Clark presented the subject of Teach-  
ers' Authority from a Legal Point of  
View, speaking particularly of corpo-  
ral punishment. "Teachers have au-  
thority to control and govern. Good  
teaching is impossible without it."  
"But be slow to use the rod. First  
study the child's disposition and con-  
sult his parents."

Next meeting in court house, four  
weeks from date.

#### 3RD DIST. TEACHERS' ASSOCIATION.

Meeting held at Trotter schoolhouse  
Saturday evening, Oct. 19. Only a few  
teachers present, but a good attend-  
ance from the district and the meeting  
was both pleasant and instructive.

The subject of tardiness was thor-  
oughly discussed.

Officers elected, President, C. H.  
Bloss, Secretary, Miss Geneva  
Woods. Next meeting at Wendell,  
four weeks from date of first. Pro-  
gram as follows:

#### HIGH SCHOOL NOTES.

Not much news in school now but a  
very interesting time for all pupils as  
Thursday and Friday is examination  
for the first nine weeks of school.

The Geology class have received  
their standing, six receiving exem-  
plary grades while five will have to take  
the examination. Good work has  
been done in Geology this quarter  
and they expect to finish the text by  
Christmas.

Several H. S. scholars visited Fred  
Andrews' school last Friday p. m.  
and reported the school as doing  
nicely.

The seniors have just finished the  
second book of Caesar ready to start  
on the third next Monday.

Eastern upper tendon is in a high  
state of excitement over the report  
that the king of Belgium is about to  
visit the United States. The excite-  
ment has extended as far west as  
Kansas City. So far none of the  
symptoms have been observed here.

FRED LEWIS,.....

Tuesday of this week the assassin  
of our president paid the penalty of  
his crime so far as it lay in the power  
of the law to do so. He was deprived  
of his life. It is interesting to note  
in this connection what the investiga-  
tions of the last few weeks has devel-  
oped as to the political affiliations of  
this criminal, in view of the hyster-  
ical utterances of the republican  
press following the commission of the  
crime when, with one accord, the yellow  
journals saw the hand of anarchy  
directed by the political opponents of  
our martyred president. They charged  
the crime to the teachings of the polit-  
ical opponents of the president. We  
now learn through the medium of a  
Cleveland paper that Czolgosz was a  
republican, his relatives were all re-  
publicans and that he announced dur-  
ing the last presidential campaign  
that he would vote the republican tick-  
et. It will be remembered that the  
assassin of President Garfield was  
also a republican. Let the republic-  
ans keep the scum of their own party  
organization and not try to foist it  
over onto us. We believe that these  
crimes were committed against the na-  
tion and that no party is responsible  
for them.

Kansas has two remarkable sena-  
tors, one for his talking ability and  
the other for the work he accomplishes.  
Senator Harris is one of the hardest  
working men in Washington and about  
the only mention of him made by the  
press is that he is at work. Senator  
Burton is mentioned more frequently  
and usually in connection with the  
distribution of patronage and seldom  
in a complimentary way. He has re-  
cently attracted unenviable notoriety  
by being sued in Missouri on some of  
his old debts amounting to many  
thousands of dollars. Kansas has  
reason to be proud of the one and  
ashamed of the other.

The editor of the Review of Reviews  
in "The Progress of the World" for  
November, discusses President Roose-  
velt's principles of appointment, as  
related to his "Southern policy"; the  
tariff and Cuba; the demand for pub-  
licity in the management of trusts; the  
ship subsidy scheme; the Isthmian canal;  
the Pan-American Congress at  
Mexico; the New York municipal elec-  
tion; the various state campaigns; and  
many other topics of the hour.

As we come toward the Christmas  
holidays, larger space in the maga-  
zines is given to fiction. The Cosmo-  
politan includes a tragic story of the  
Mexican foot-hills by Thomas A. Jan-  
vier, a very clever society story by  
Carolyn Wells, one of the old French  
romances by Richard Le Gallienne,  
an unusually interesting Indian nar-  
rative by H. T. George, and a weird  
story by S. R. Crockett.

Caleb Powers, ex-secretary of the  
state of Kentucky, has again been  
found guilty of complicity in the mur-  
der of Governor Goebel. Even the re-  
publican party can hardly commit  
such crimes in the United States and  
escape conviction. It is to be noted  
that few editorial utterances emanat-  
ing from the party organs can be  
found and those always condemn the  
verdict of the court.

But a few weeks ago and thousands  
of people were filled with envy of  
J. R. Woods, the man who drew the  
first prize in the government land  
lottery in the Lawton district, and to-  
day no man can be found who would  
exchange places with him. He died  
from typhoid fever this week. The  
government had disposed of all of the  
contest against him and his widow  
will make proof on his claim.

The Hutchinson News is authority  
for the statement that J. H. Curran,  
secretary of the populist state com-  
mittee, has taken a job as reporter on  
a Topeka republican paper. It is not  
to be inferred that he will not push  
campaign matters just the same, but  
that he has been compelled to accept  
the position as a pot boiler.

A Lindsborg woman is breaking her  
husband of the liquor habit without  
resorting to the Keely cure. Every  
time the old man comes home drunk  
she uses a broomstick on him. This  
proves what the temperance people  
have always told us—the after-effects  
of liquor are terrible to contemplate.

There is no surer beginning for a  
home than simple furnishing. In sim-  
plicity lie safety, reason and art.  
There is nothing finer nor higher. It  
is supreme.—November Ladies' Home  
Journal.

Since the exit of the Kansas City  
Times the populist and democrats of  
this state have transferred their alleig-  
iance to the Kansas City World.
